

## GODDARD GIRLS WON

Defeated Sisters From Montpelier Seminary, 8 to 5

### IN A WELL-PLAYED GAME

The Home Team Played the Stronger Game Throughout, But Lost Many Easy Chances to Cage the Ball.

In a close, well-played game in the girls' basketball league the Goddard seminary girls defeated the Montpelier seminary girls in the Church street gymnasium last evening by a score of 8 to 5. There was a fair-sized crowd of spectators present.

Goddard scored first on a foul thrown by Miss Chapman just after the game started. Miss Brown very soon shot a basket from the floor for Goddard and Miss Snow in a few minutes scored a basket from the floor for Montpelier. A basket from the floor and one from a foul by Miss Chapman of Goddard and one from the floor by Miss Brooks of Montpelier finished the scoring of the half with the home team in the lead, 6 to 4.

In the last half Miss Chapman shot two fouls for Goddard and Miss Thomas one for Montpelier. Of the many fouls called on both teams, Goddard shot only four and Montpelier one. Goddard played the stronger game and had many easy chances for baskets from the floor.

### A STANDING CHALLENGE.

G. A. C. Willing to Play Company F on a Neutral Floor.

Editor Barre Times: I saw an item in Monday's issue signed by Spectator, pertaining to the basketball game last Friday evening at Northfield between the Graniteville A. C. and Company F team of that place. That person stated that the game was slow and also that the Company F boys played the better game, showing superior team work. I fully agree with him that the game was slow, but through no fault of ours, for it was on account of the outside lines, both on the sides and ends of the hall, which the Graniteville boys at least were not used to. The ball being thrown out of bounds all the time accounts for the slowness of the game. As to the Company F boys playing the superior game, I fail to see it. Not once during the game were they in the lead and only in the last few minutes of play, when they made a final upset, were the Graniteville boys in danger of losing the game. The correct score was 22 to 20. Now if the Company F boys have any reason to believe they can defeat us, they can try it any time in the near future on a neutral floor of their own choosing.

(Signed) Mgr. G. A. C.

### A Reliable Remedy For the WHISKEY AND BEER HABIT

Very few men become drunkards because they like liquor. It is frequently the moderate drinker, who before he realizes his condition, has become a drunkard. The nervous system, having become accustomed to stimulants, is unable to do the same amount of quality of work without liquor, hence the victim drinks more and more. This is a state of disease and should be treated by Orin. It destroys the desire for liquor, so that the drink is not missed. There is no loss of time or detention from work when it is used.

Orin is prepared in two forms; No. 1, the secret remedy which can be used in food or drink without the knowledge of the patient; No. 2, for those who take the remedy of their own free will. Both forms are guaranteed. A registered guarantee in every box.

Attention to how to cure drunkenness free on request. The Orin Co., Washington, D. C. The price of either form is \$1, a box making the cost of the complete cure less than one-tenth what is usually charged at sanitariums, with a guarantee that the expense will be nothing unless a cure is gained. Mail orders filled in plain sealed package on receipt of price.

Orin is sold by Rickert & Wells, Barre, Vt.

### HOW McGOVERN WAS TRICKED.

Young Corbett's Insult Set His Opponent Wild and Later Soon Fell.

After Terry McGovern went to defeat at the hands of Young Corbett six years ago his one ambition was to win back the honors he had lost. Three times re-matched with his conqueror he trained hard and long, putting his whole mind into the task. Three times the match fell through, and Terry, bitterly disappointed, returned to his home. It was not entirely on fighting ability that Young Corbett won the fourth fight at San Francisco. He used a trick that should be barred from all competitions, and that is barred from amateur events where money-making and the spirit of professionalism do not enter.

Young Corbett knew that Terry was excited and likely to lose his head under certain conditions. Before the fight he planned a way to take advantage of this fact. In the ring as soon as the fight began, he talked to Terry. He taunted him with his former defeat, called him a "quitter," asked him why he didn't "he down like he did in Hardin," and in all of that failed, made an offensive remark about Terry McGovern's wife. That last was beyond endurance. Terry lost his head, fought wildly, and went down to defeat in consequence. After the fight Terry's heart was nearly broken over his failure to avenge the insult that had been offered him in the ring. The little ex-champion went back to his training quarters. He was alone, as his friends had left after defeat. The gardens were deserted. The crowd was following the winner.

Terry went out among the trees and sat down on a big stone. He felt his loneliness keenly, for not even his trainers had yet returned to the deserted camp. After a while a little Italian boy came across the way came out to Terry, bringing him a letter. It was from Terry's wife. It should have reached him before the fight, but had come too late. "I can't read it now," said Terry, his eyes filling with tears as he recognized the well-known writing. "You read it for me." The Italian boy opened the letter and began:—

Dearest Terry.—X. X. X. X. X.—These are kisses from the baby. We are all sending our love, and you know that we are thinking of you and hoping that you will win. It means so much to us, Terry dear. The boys are telling me that Young Corbett will try every way he can think of to make you lose your head. But, Terry, just remember that the babies. Don't mind anything they may say. Don't even think of it until you have won. When he begins to talk just think of me and remember that I want you to keep cool.—

This was as much as Terry could stand. He rolled off the stone, lay beside it on the grass, and sobbed like a child. If that letter had only come a day sooner!—From "Fighting in Hell," by Robert Edgren in the Outlook magazine for March.

### PRINCETON NINE'S PROSPECTS.

Heyniger Will Again Do the Pitching—Only Three Last Year's Men Lost.

Princeton has excellent baseball prospects, with only three men lost by graduation. The team will start practice under the supervision of Coach A. E. Meyer, 1902, in the cage this week. Of the nine regular players of last year's team, six are eligible to play this spring. They are: Capt. Harlan, left field; W. W. Winter, right field; W. S. Heyniger, pitcher; W. R. Sides, third base; R. Vaughn, short stop, and E. A. Dillon, second base. J. L. Conney, catcher; W. McLean, first base, and L. W. Newcomb, center field, were lost by graduation. The loss of Conney will be a steady effect on the pitchers and on the rest of the nine as well, and it will be hard to find a catcher who combines all of his good qualities. The candidates for the position this season are S. Phillips and J. N. Watkins, both of whom have good records on the second team, where they have played for two years. F. T. Dawson, who caught for the freshman team last year, is also a steady man behind the plate and will make a good bid for the position this spring.

Except for the loss of G. A. Walker, the pitching staff remains intact this spring. The "Tigers" will pin their hopes on "Big" Heyniger again this year, and as a pitcher he has never failed them. His cool nerve in the box has pulled the team out of some critical situations in the last two years, while he possesses first-rate speed and fields his position in good shape. He showed a marked improvement last year and has developed into a reliable man. W. Clark, jr., also showed good style on the mound last year, while C. P. Wilson, 1910, who pitched for the freshmen last year, will make some of the veteran's battle for the position. The rest of the infield will be composed of fast and accurate players. Sides at third base is a sure fielder and a good batter. Vaughn's batting is also of a high standard. He covers his position of short stop in a very efficient manner and is an excellent thrower. Dillon at second base is a steady player and a timely hitter. First base, however, is left vacant through the graduation of McLean. C. M. Hamill, E. C. Selby and W. R. Warwick are all experienced men and will be candidates for this position. Hamill will play left field, as he has done for the last three seasons. He is a good man in every respect, having had a fielding average of 1.000 for the last two years and also a good batting average. Winter will again be at right field. Other candidates for the outfield will be W. R. Warwick and C. F. Pittman.

## HEARING ON LIABILITY BILL

An Act to Pass Court Held Necessary

### FORAKER MOVES TO AID

The Innocent at Brownsville—Culberson Would Amend the Aldrich Measure—Lodge Asks for Some Correspondence with Venezuela.

Washington, D. C., Feb. 27.—Arguments for and against an employers' liability bill were heard yesterday by the House committee on judiciary. Second Vice-president and General Counsel Bond of the Baltimore & Ohio Railroad company detailed the workings of the relief departments of the different railway systems, which he said represent an attempt to establish a compensation system. All agreed, he said, that the scope of any employers' liability bill that can now be passed by Congress is very much narrowed and all also agree upon the importance of having a bill drawn on such sound and constitutional grounds that the whole matter will not be tied up in litigation for two or three years.

### NO SPECULATION WITH FUNDS.

Purpose of Amendment to Aldrich Bill Proposed by Mr. Culberson.

In a speech on the Aldrich currency bill in the Senate yesterday, Senator Culberson said he would try to have the bill so amended as to require national banks to keep their reserves in their own vaults and to prevent them from using government funds deposited with them in any way that might promote speculation.

Washington, Feb. 27.—Representatives Hayes and Kahn of California yesterday argued that the House committee on foreign affairs in favor of the Hayes bill to regulate the coming into and residence within the United States of Chinese, Japanese, Koreans, Hindus and others of the Mongolian or Asiatic race. They said the only way to effectively stop the immigration of these people is by an absolute prohibition enactment. They insisted that the arts of diplomacy never would correct the evil.

### COMMON SENSE vs. STRONG DRUGS

Simple Oil of Wintergreen Cures Eczema and Drives Out Old Fogy Treatment.

If you were to hack your finger or scald your arm, you would apply some healing remedy as soon as possible, wouldn't you?

That would be good common sense and it would bring the quickest relief. You surely would never think of drinking medicine or doctoring the blood to cure a surface affliction.

It's just the same principle with diseases of the skin. Eczema, psoriasis, salt rheum and barber's itch can be cured and cured easily if you strike right at the trouble as you do with a cut or burn.

The cause of itching, burning skin diseases according to modern science, is a germ which feeds upon the weaker part of the skin. To kill these skin localities which produce the itching, sores and ugly red blotches, use the famous prescription of oil of wintergreen, glycerine and thymol, commonly known as D. D. D. Prescription. This mild liquid was advocated by a prominent skin specialist, Dr. Dennis, of Chicago, long before it was adopted generally. This liquid is called D. D. D. Prescription. It is a positive specific for all skin diseases.

Don't dose the stomach. Cure the skin through the skin. We know D. D. D. and vouch for it. Call at our store and let us explain. Rickert & Wells, Barre, Vt. Booklet on skin diseases free.

### PREDICTS MURDER OF A PRIEST IN CHICAGO

"I Am the Most Logical Man for Assassination," Says Chancellor Dunne—Now Has a Body-guard.

Chicago, Feb. 27.—"A murder will be committed in Chicago within a month similar to the Denver assassination, where the Rev. Fr. Leo Heinrich was shot down while administering holy communion in St. Elizabeth's Roman Catholic church," asserted Chancellor E. M. Dunne of the Chicago archdiocese Tuesday night.

"I am positive that anarchists, anti-clericals, or whatever they call themselves, have prepared lists of priests and clergy to be killed, and am certain that some Chicago man has been marked," he said. "I am the most logical man for assassination and, although, I have thousands of friends in the Italian colony, I also have many bitter enemies."

Fr. Dunne said that if he was not chosen to be murdered, the other candidates would be either Archbishop Quigley, the Very Reverend F. S. Angelhood of the Church of the Assumption, or the Rev. Fr. Francis Gordon, provincial of the Resurrectionists.

Detectors Bernacchi and Longobardi have reported to Chancellor Dunne at the chancery office and told him they were instructed to serve as his personal body guard.

### CHARGES CRUELTY IN GERMAN COLONY.

East Africans Complain of Flogging—Cuts Polish Land Seizure.

Berlin, Feb. 27.—The colonial reforms proposed by Colonial Secretary Dernburg were discussed by the appropriations committee of the Reichstag yesterday. Wilhelm Lattenmann, anti-Semite member, read a letter from a correspondent in East Africa in which the negroes attacked to Herr Dernburg's recent excursion through East Africa were quoted as saying that they never wanted to go with the secretary again; never before had they had such flogging.

Herr Reichenberg, Governor of German East Africa, was present and discredited the letter read by Herr Lattenmann.

The second reading of the Polish bill was begun in the Prussian House of Lords yesterday. The bill has been amended to read that land held longer than 10 years cannot be expropriated. Herr von Arnim-Griewen showed this reduced the amount open for expropriation from 173,000 acres to 48,000 acres.

## IMPROVE THE WATERWAYS

Report Presented by Government Commission

### PRESIDENT URGES ACTION

The President Submits It With Letter of Commendation—The Railroads Do Not Keep Up With Production.

Washington, D. C., Feb. 27.—President Roosevelt yesterday sent to Congress a message transmitting the preliminary report of the inland water ways commission. In the message the president says that in the United States the river systems are better adapted to the needs of the people than those of any other country, yet in no other civilized country are the river systems so poorly developed or so little used.

"The development of our inland waterways," says the message, "will have results far beyond the immediate gain to commerce. Deep channels along the Atlantic and Gulf coasts and from the Gulf to the great lakes will have high value for the national defense.

"Forest protection, without which river improvement cannot be permanent, will at the same time help to postpone the threatened timber famine. Irrigation will create the means of livelihood for millions of people and supplies of pure water will powerfully promote the public health. If the policy of waterway improvement is carried out, it will affect every good citizen of the republic."

Slayer of Father Heinrichs Says He Killed Wrong Man.

Denver, Col., Feb. 27.—The body of Father Leo Heinrichs was taken from St. Elizabeth's Roman Catholic church yesterday to the Union Station, where it was placed aboard a train to be forwarded to Paterson, N. J., the Franciscan Fathers' headquarters.

The funeral procession was witnessed by thousands. For the services at the church every available seat was filled. Governor Buchtel was among those present.

Solemn high mass was recited and the service was impressive. Rev. Fr. William O'Ryan delivered the funeral sermon in which he highly eulogized the martyred priest.

An information charging Giuseppe Alois with the murder of Father Leo was filed yesterday in the district court. In his confession to a representative of the Denver police department, Alois said he mistook Father Leo for an Italian priest who had been taking active part in fighting revolutionists in Avolo, Sicily, and whom they determined to kill after they had been compelled to flee to Argentina.

### DOESN'T WANT PHILIPPINES.

Takahashi Says Japan Couldn't Buy Them and Wouldn't Take Them.

New York, Feb. 27.—Sakuyel Takahashi, professor of international law in the Imperial Japanese university, and author of many books on international law is now in New York on a tour of study that will last a year. He may stay in New York several months. Professor Takahashi says, too, that talk about a war between this country and Japan is foolish, and that Japan has no need or desire for the Philippines islands. Professor Takahashi arrived in this country last October, having obtained a year's leave of absence from the university. He has spent over two months on the Pacific coast, studying conditions there, and has worked his way to New York by way of Colorado, Texas and Louisiana. "We do not want the Philippines," said Professor Takahashi. "We couldn't buy them, for we have not the money. We have no intention to try to take them, for they are not worth the trouble. We do not need them so much. Korea is to be settled up. Sakhalin Island is open to us. Yes, we have plenty of land now that does not cost money or trouble."

### NO PLANET BETWEEN SUN AND MERCURY, HE ASSERTS.

Prof. Campbell of Lick Observatory Demolishes an Old Theory.

San Francisco, Cal., Feb. 27.—That there are no planets between the sun and Mercury, and that scientists will have to build up some other theory to explain why Mercury does not move in the regular orbit described for it, are the conclusions at which Prof. W. W. Campbell, head of the Lick observatory, has arrived from the development of photographic plates taken at Flint island several months ago. These show the complete absence of any planet between the sun and Mercury.

For fifty years astronomers have been disturbed by the fact that Mercury does not follow the path or orbit which should be its natural course, and which mathematical astronomy has outlined for it. That there was some force pulling it from its orbit, and that this compelling force was the attraction of planets intervening between it and the sun, was the general theory.

### ARCHBISHOP RYAN PUTS BAN ON DANCING FOR CHURCH.

Forbids It in Entertainment for Religious or Charitable Objects.

Philadelphia, Pa., Feb. 27.—Archbishop Ryan has issued a pastoral letter to the priests of the archdiocese of Philadelphia, in which he denounces dancing at Catholic entertainments for religious and charitable objects. He says: "We have reason to fear there is increasing laxity among our people in regard to amusements. It is not infrequently carried on, announced as part of a program of entertainment for religious or charitable objects. Fairly pictures, and excursions, even for charitable purposes, are never to be held without permission of the bishop, and alcoholic drinks must never be permitted at them. Bails for charitable purposes are strictly forbidden."
